BOOK SYNOPSIS

In this unique guide to the suite of contracts published by FIDIC (The International Federation of Consulting Engineers) - the contract forms most widely used for international construction undertakings - twenty-two outstanding authorities in construction law from a wide variety of countries, describe relevant likely pitfalls (and special opportunities) for foreign lawyers in each of their jurisdictions. This very useful book will be extremely welcome to in-house counsel who must evaluate the legal disposition of a proposed or pending construction contract subject to the laws of a foreign jurisdiction. It will continue to be of service as long as the project proceeds and beyond, particularly for the optimal resolution of disputes.
