BOOK SYNOPSIS

#1 INTERNATIONAL BESTSELLER What's the formula for a happy life? Neil Pasricha is a Harvard MBA, a Walmart executive, a New York Times–bestselling author, and a husband and dad. After selling more than a million copies of his Book of Awesome series, he now shifts his focus from observation to application. In *The Happiness Equation*, Pasricha illustrates how to want nothing, do anything, and have everything. If that sounds like a contradiction, you simply haven't unlocked the 9 Secrets to Happiness. Each secret takes a common ideal, flips it on its head, and casts it in a completely new light. Pasricha then goes a step further by providing step-by-step guidelines and hand-drawn scribbles that illustrate exactly how to apply each secret to live a happier life today. Controversial? Maybe. Counterintuitive? Definitely. *The Happiness Equation* will teach you such principles as: · Why success doesn't lead to happiness · How to make more money than a Harvard MBA · Why multitasking is a myth · How eliminating options leads to more choice *The Happiness Equation* is a book that will change how you think about everything—your time, your career, your relationships, your family, and, ultimately, of course, your happiness. From the Hardcover edition.
